Technical Specifications

Trapezoidal Metal Roof (Industrial Shed)

Tilt Angle: Same As Metal Roof

Module Type: Polycrystalline Modules

Module Orientation: Portrait / Landscape

Description	Specification
Tilt Angle	Same As Metal Roof
Panel Orientation	Portrait / Landscape
Wind Speed	200 km/h
Material	Aluminium 6063 T6, SS 304
Weight	14.5Kg/m ² (Including modules)
Standards	IS 8147, IS 875 - 1987 Part III

Advantages:

- More Than 100 Mm Clearance From Roof To Module Back Sheet For Better Air Flow.
- Leak Proof Tested For 200 Mm Static Water.
- Suitable For Any Polycrystalline Module .
- Fewer Components Help In Reducing Packaging And Transportation Cost.
